High Capacity

High Security

With the widespread use of networked printers and fax machines, confidential business information is constantly being printed throughout the workday. It's important to have a powerful shredder located nearby to easily dispose of this information. Dahle Office Shredders are designed to accommodate the needs of most busy offices by shredding between 400 and 2,000 sheets of paper per day. This is the perfect device for properly destroying marketing plans, health records, or other confidential information that should not be seen by others.

With nine models to choose from, Dahle Office Shredders are built with a 10" feed opening to accommodate both letter and legal size paper. This range offers four strip cut models (20506 / 20606 S / 20606 C / 20606 EC) and five cross cut models (20514 / 20612 C / 20612 EC / 20614 EC / 20630 EC) and is able to shred to the standards of security level 2, 3, 4 or 5. The 20606 S/C/EC shredders feature a powerful 1 Hp motor capable of shredding 38 sheets of paper at a time.

Dahle Office Shredders use the latest technology. Some models feature full electronic capabilities including such safety features as Automatic Shutoff when the cabinet door opens and Auto Reverse to prevent an overfeed. Automatic On/Off and Bag Full Auto Off are features that offer both convenience and satisfaction in knowing you will be notified when it's time to empty the box or change the bag.

Normal office functions will not be bothered by the use of your Dahle Office Shredder. Each cutting cylinder is encased in an all-steel frame and sits on rubber shock mounts. It's this design that reduces vibration through the cabinet and provides whisper quiet operation. With its ease of use and state of the art capabilities, the Dahle Office Shredder will soon become a favorite meeting place and quite possibly the water cooler of the future.
